

NO MORE ICE DAMS

Homeowners are saying "NO" to cold, drafty, uncomfortable homes and high energy bills.

ZERODRAFT

"We were very happy with our ZERODRAFT contractor. The team was very professional, neat, clean, quick and effective."
- Irene Russo, Monroe, New York.

You don't have to live this way anymore.

- PROTECT YOUR INVESTMENT.
- MAKE YOUR HOME MORE COMFORTABLE.
- PREVENT DANGEROUS MOLD GROWTH.
- REDUCE YOUR HEATING BILLS.

Ice damming causes early roof failure and other structural damage. Mold and mildew can pose serious health risks for your family. Cold drafts make your home uncomfortable and raise your heating bills.

All of these problems are caused by uncontrolled air leakage in your house through gaps, cracks, leaks and holes. All of these problems can be solved by your Zerodraft Contractor.

Insulation by itself is not enough. Your ZERODRAFT Contractor will seal the many air leakage pathways in your house using the highest quality, durable ZERODRAFT Weatherization Materials and proven application techniques.

WE SEAL AND INSULATE UNDER ENERGY STAR GUIDELINES

ZERODRAFT Specialists Fix Ice Dams, Solve Comfort Problems For Northeast Homeowners.

Myth: Ice dams are an unavoidable weather-related issue.

FACT: Ice dams are an entirely preventable, construction-related issue.

Myth: Ice dams do not cause structural damage.

FACT: Ice dams cause premature roof failure and allow water into the attic where it rots wood and can cause toxic mold.

Myth: The only way to deal with ice dams is to sweep the roof clear of snow.

FACT: Ice dams should be prevented - not swept under the carpet. For many residents, going up on the roof in mid-winter is not only dangerous, but impossible!

Myth: Meeting the Building Code means the house is energy efficient.

FACT: According to the US Department of Energy, for a typical home, 25-40% of the heating and cooling dollars escape through unseen cracks and gaps.

Myth: You have to suffer through drafts, cold floors and high heating bills all winter.

FACT: There is no reason to live with cold, uncomfortable homes, high heating bills and compromised real estate values.
